

Robot Part

This back housing for a robotics system is printed in LOCTITE® 3D 3843 for toughness, aesthetics, and long term stability. What is most noticeable about this part is the combination of surface finish – among the best in the Stratasys portfolio – texturing, and part toughness.

System	Origin® One P3™ DLP
Material	LOCTITE® 3D 3843
Build Time	10 hrs, 23 mins
Material Used	57.08 cm ³

ISO 9001:2015 Certified
