

TH212 - Customizable supports for box cover by Techno srl

A series of accessories has been developed for the TH212 box cover to attach, assemble, and secure various products, including terminal blocks, drivers, and power supply elements. The accessories include a universal grid and customizable supports tailored for specific applications. The LOCTITE® 3D 3843 material allows to achieve an IK9 protection grade, even in high-stress temperature cycles.

System

Origin® One P3™ DLP
