

TH405UP - with a 3D printed version of TH023 terminal block by Techno srl

TH405Up is a TH023 3D printed version enhanced with a cutting-edge plug & socket. Engineered for resilience, this connector is designed to withstand thermal and current stress, offering robust protection against environmental agents and demanding operational processes. Elevating performance to new heights, printing LOCTITE® 3D 3843 on Origin® One ensures unrivaled dielectric, high voltage, and high current resistance in various work environments. The result is a ready-to-use product, setting a new standard for connection devices.

System

Origin® One P3™ DLP

Material

LOCTITE® 3D 3843
