

Minkeshi Figurine

Original figurines made by a father and his children. The children (Rakuto, 10, and Daiki, 8) created over 100 original characters. Their father, who is a product designer, modeled them based on sketches born from his children's imagination. He then reproduced them in fine detail with the Stratasys J850™ Prime.

System	J850™ Prime
Material	VeroUltra™ White, VeroUltra™ Black, VeroCyan™V, VeroMagenta™V, VeroYellow™V
Support Material	SUP706™
Build Time	2 days, 19 hrs, 59 mins
Material Used	5,697 g
Support Material Used	3,993 g
