

# Color-Coded Drill Guide

This large drill guide was printed in ASA thermoplastic on the large-format F770™ 3D printer. The F770 can print ASA in seven colors: Red, White, Light Gray, Black, Yellow, Blue, and Ivory. The combination of the F770 and colored ASA allows manufacturers to print sizable parts and tools in various colors for identification or to match industry-specific color coding. This capability negates the need for painting, saving time and post-processing costs.

System	F770™
Material	ASA Red
Build Time	75 hrs, 30 mins
Material Used	87.4 in <sup>3</sup> (1432.23 cm <sup>3</sup> )
Support Material Used	39.8 in <sup>3</sup> (652.21 cm <sup>3</sup> )
