

# Flight Safety Cover

This cover protects aircraft components during ground operations and was 3D printed with two ASA colors on the F3300™ printer. The application demonstrates the F3300's multiple-extruder capability to print in more than one color, eliminating the need to change materials to achieve the same result with single-extruder printers. This ultimately reduces print time and eliminates post-print marking requirements.

System	F3300™
Material	ASA
Build Time	5 hrs, 39 mins
Material Used	4.84 in <sup>3</sup> (12.3 cm <sup>3</sup> ) - Model material 1 0.264 in <sup>3</sup> (0.67 cm <sup>3</sup> ) - Model material 2
Support Material Used	3.21 in <sup>3</sup> (8.15 cm <sup>3</sup> )
