

Cable Gland

Cable glands are critical components connecting wiring to electrical power, communication, navigation, and other systems. Often exposed to varying environmental conditions, this cable gland was printed with Somos® WeatherX 100, an proven environmentally durable material, to extend the serviceable life of the cable-part assembly. Exhibiting improved water-, chemical-, and UV resistance, Somos WeatherX 100 printed on the Origin® One system achieves high part accuracy and a water-tight finish.

System	Stratasys Origin® One P3™ DLP
Material	Somos® WeatherX™ 100
Build Time	4 hrs, 11 mins
Material Used	5.9 in ³ (15 cm ³)
