

TH400UP Connector

With ZHAGA Adapter

The Zhaga LED Luminaire Standard Connector is a versatile solution crafted to simplify attachment to diverse surfaces and excel in outdoor applications. Leveraging the capabilities of TH400, combined with components manufactured by Zhaga, the connector caters to both indoor and outdoor environments, opening doors to applications ranging from smart cities to cutting-edge architectural designs. Engineered to endure the rigors of outdoor installations, UV exposure, and atmospheric agents, it ensures lasting performance. Printed on Origin® One in Loctite® 3D 3843, the connector achieves an impressive IP66 protection grade and IK8 impact resistance, guaranteeing not just connectivity, but also longevity and reliability.

System	Stratasys Origin® One P3™ DLP
Material	Loctite® 3D 3843
